

Koh Young America Honored its Top Performing Partners

Atlanta, Georgia – While COVID-19 permanently changed so many elements of our life in 2020, we were still fortunate to continue our tradition of honoring our sales partners who found success despite the turmoil. Koh Young America, the global leader in 3D measurement-based inspection and smart factory solutions, was excited to recognize its ‘rainmakers’ – even if during a virtual training event in the midst a global pandemic.

Combining our award-winning portfolio of True3D™ inspection technologies with process control and connectivity software, the industry’s finest group of sales representatives helped Koh Young America realize solid results in a tumultuous 2020. Koh Young America specifically recognized the following sales partners for their remarkable contributions:

- **Technical Resources Corporation (TRC):** Frank Mascetti, Brad Peters, and John Feliciano
- **Repstronics:** Jorge Quijano and Daniel Enriquez

Founded in 1993 by Frank Mascetti, TRC has been with Koh Young since our foray into North America. Frank and his team including Brad Peters and John Feliciano specialize in manufacturing, inspection, and synergistic products for the electronics assembly industry. The combined resources at TRC provide more than 90 years of experience serving the electronics industry in Florida, Puerto Rico, and the Dominican Republic.

Covering Mexico and Central America, our sales partner Repstronics has been delivering equipment and material solutions for the electronics manufacturers for over 17 years. With a diverse product lineup, Repstronics delivers solutions for circuit board assembly, marking, harnesses, cables, and fiber optics, as well as maintenance, repair, and operations (MRO) products. Complementing its line card is a technical and commercial team of highly trained engineers who work in coordination with us to overcome challenges.

“Zig Ziglar famously stated ‘Expect the best. Prepare for the worst. Capitalize on what comes,’” commented Joel Scutchfield, Director of Sales at Koh Young America. “While the entire sales team at Koh Young is exceptional and maximized their results in 2020, Frank, Brad, John, Jorge, and Daniel embraced the challenge we faced and emerged with outstanding results. These elite partners deserved special accolades for their success.”

About Koh Young

Established in 2002, Koh Young pioneered the market by launching the first 3D Solder Paste Inspection (SPI) system using a patented dual-projection Moiré technology. Since then, it has become the global leader in 3D measurement-based SPI and Automated Optical Inspection (AOI) equipment for the electronics industry. Based on its True3D™ measurement-based inspection technology, Koh Young has developed new solutions for challenges with Machining Optical Inspection (MOI), Dispensing Process Inspection (DPI), and Semiconductor Packaging Inspection (MEISTER Series), as well as branching out to Medical Robotics for brain surgery (KYMERO). Through its technological innovations, Koh Young has secured thousands of global customers, and maintains the largest global market share in the SPI and AOI markets. Additionally, by adopting its user-centric R&D activities, it continues to leverage core competencies and develop innovative solutions for new and existing markets. Its activities stem from the corporate headquarters in Korea to its sales and support offices in Germany, Japan, Singapore, Vietnam, Penang, China, Brazil, Argentina, Canada, Mexico, and the United States. These local facilities ensure it keeps in close contact with the market, and more importantly, its growing customer base to provide access to an award-winning network of inspection and measurement experts.
