

Koh Young Celebrates its Award-Winning EMS Partners

Atlanta, Georgia – Earlier this month in a virtual award ceremony, CIRCUITS ASSEMBLY announced the winners of its 2021 Service Excellence Awards for electronics manufacturing services (EMS) providers. Koh Young celebrates each of the winners for their focus on achieving excellence. To help them reach their quality goals and satisfy their customers, over half of the award-winning EMS providers have integrated True 3D™ solder paste inspection (SPI) and automated optical inspection (AOI) solutions from Koh Young.

According to the Circuits Assembly scores, the overall EMS winners were **Kimball Electronics** (sales over \$500 million) and **XLR8 Services** (sales under \$20 million). **Qualitel** tied for top honors in the sales of \$20 million to \$100 million category. The EMS companies with the highest scores in each of five individual service categories also received awards. In the small-company category, **Silicon Forest Electronics** won in all five categories. For firms with revenue between \$101 million and \$500 million, **Mack Technologies** won in each of the individual categories. For EMS companies with revenue over \$500 million, **Creation Technologies** took home all five awards. Our congratulations to these Koh Young customers.

“EMS companies rely in part on capital equipment to ensure they can deliver the highest levels of customer satisfaction, dependability, and quality to its customers, and we are privileged to be a supplier to so many of the award winners again this year,” said Joel Scutchfield, Director of Sales at Koh Young America. “We applaud each of our partners for this recognition.” The Service Excellence Award is still the most significant recognition program in the industry, so we are especially proud of these Koh Young customers. The awards are especially significant since the rankings are completed by their own customers.

If you would like to watch the ceremony and see all the of the 29th Annual Service Excellence Awards, the video replay is available at vimeo.com/534113541. About Koh Young

Established in 2002, Koh Young pioneered the market by launching the first 3D Solder Paste Inspection (SPI) system using a patented dual-projection Moiré technology. Since then, it has become the global leader in 3D measurement-based SPI and Automated Optical Inspection (AOI) equipment. Based on its True3D™ measurement-based inspection technology, Koh Young has developed new solutions for challenges with Machining Optical Inspection (MOI), Dispensing Process Inspection (DPI), and Semiconductor Packaging Inspection (MEISTER Series), as well as branching out to Medical Robotics for brain surgery (KYMERO). Through its technological innovations, Koh Young has secured thousands of global customers, and maintains the largest global market share in the SPI and AOI markets. Additionally, by adopting its user-centric R&D activities, it continues to leverage core competencies and develop innovative solutions for new and existing markets. Its activities stem from the corporate headquarters in Korea to its sales and support offices in Germany, Japan, Singapore, Vietnam, Penang, China, Brazil, Argentina, Canada, Mexico, and the United States. These local facilities ensure it keeps in close contact with the market, and more importantly, its growing customer base to provide access to an award-winning network of inspection and measurement experts. Learn why so many electronics manufacturers trust Koh Young at kohyoung.com.
